## Title of practice

The Rapporteur

### Key features:

In **Belgium** a rapporteur is appointed amongst the participants especially in long (several day) training sessions with several presenters/trainers and a large number of participants.

The task of the rapporteur is to summarise participants’ opinions on the content and quality of the training session and to prepare a draft report.

At the end of the training session the draft report is submitted to the participants for approval and then sent to the Judicial Training Institute.

### Other comments

The described method performs level 1 of the Kirkpatrick training evaluation model. It also enables the receipt of real time summarised feedback information from participants about the quality of the training, along with suggestions on how to improve it.

It may be considered a **BEST PRACTICE** that other training institutions may like to follow in conjunction with their own training evaluation schemes.
