General information on interconnected registers

A new version of the Insolvency Registers Interconnection search interface is now available [here](#) in accordance with Article 25 of Regulation (EU) 2015/848 of the European Parliament and of the Council.

Member State information

Austria	Finland	Malta
Belgium	France	The Netherlands
Bulgaria	Croatia	Poland
Cyprus	Ireland	Portugal
Germany	Lithuania	Romania
Estonia	Luxembourg	Sweden
Spain	Latvia	Slovakia

About this service

Information provided by the European Commission

This service allows you to request a search and to get information about insolvency proceedings that have been opened in the territory of the EU Member States [1] and are registered in those national registers that are interconnected in accordance with Article 25 of Regulation (EU) 2015/848 of the European Parliament and of the Council.

This system is a service interconnecting the decentralized national insolvency registers of the Member States and does not constitute a centralised EU insolvency register. Consequently, no data is stored or maintained on the Commission systems. Your request is sent to the national registers and the reply is sent back within a few seconds.

The service offers a simple search by the name of the debtor and by Registration ID (company registration number or personal identification) in the insolvency registers of the Member States [2].

The advanced search and search of insolvency proceedings of individual debtors [3] allows users to search using different criteria according to the national insolvency law of each Member State [4]. For instructions on how to search in the registers of each Member State — e.g. the use of special characters — please refer to their rules on accessing national insolvency information. For these rules, see Member State information below.

To use the service, please enter your search request and tick the box confirming that you have read and understood the terms and conditions and that you accept them. Then click on 'search'. You will be asked to enter a confirmation code to prove that you are a human being (so called CAPTCHA filter).

The search results will be displayed in alphabetical order. You can also sort them by country.

The following messages may also appear, indicating the country to which they refer to:

- Your query did not satisfy the minimum national search criteria. Please refer to the information page and make a valid query using the advanced search.
- Maximum number of results exceeded. Some results were not displayed. Please refine your query and try again.
- No records were found matching your query.

- Service unavailable. Please re-submit your request later (meaning there is some problem with the network or the web application).

Clicking on a result will take you to the information stored in the country's insolvency register and display the selected insolvency record.

All insolvency records are composed by a core set of common information for all member states as follows:

- The date of opening of the insolvency proceedings - 24.2(a) - mandatory;
(Notice: If there is no date of opening of the insolvency proceedings in the records of a Member State then the date 03/01/0001 will be displayed in the record details page.)
- 'Case reference number' - 24.2(b) - optional;
- 'Type' presenting the type of insolvency proceedings based on a list of predefined values centrally managed by the Commission. This list corresponds to the values defined in Annex A - 24.2(c) - mandatory;
- 'Sub-type' presenting the sub-type of insolvency proceedings based on a list of predefined values centrally managed by the Commission - optional;
- 'Jurisdiction' presenting the jurisdiction for opening the proceedings - 24.2(d) - mandatory;
- The date of closing of main insolvency proceedings - 24.2(i) - optional;
- 'Debtor' section presenting information on the debtor:
 - Either as a company/legal person - 24.2(e);
 - Or as an individual - 24.2(f).
- 'Court' section, which represents the court opening the insolvency proceedings - 24.2(b);
- 'Insolvency Practitioner(s)' appointed in the proceedings - 24.2(g), whose role for the concerned proceedings can be refined via 'Practitioner Role';
- 'Information for Claim' presenting the information for lodging claims - 24.2(h);
- 'Information for Appeal' presenting the information for challenging the decision opening insolvency proceedings - 24.2(j).

Given the differences of insolvency laws in the Member States, Member States have the possibility, whether necessary, to extend the core set of common information defining an Insolvency Record with information specific to each Member State. For further details, please refer to the country's rules on accessing national insolvency information.

Although searches can be done in 22 official EU languages and most of the information is available in these languages, some information on the results page will only be displayed in the language(s) of the Member State in question. This is usually case-specific information, such as an extract from a court decision, which unfortunately we cannot translate.

If you have any more questions about the service, or want to give us feedback or share your ideas with us, please use the 'your feedback' function on the home page.

Information provided by Member States

Austria - Insolvency register

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

Austrian [Federal Ministry of Justice](#)

The public notification is done by the insolvency courts.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

The Austrian insolvency register provides a query for simple and advanced search. The register is public available and there are no specific rules for the access to the Austrian insolvency register.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The Federal Ministry of Justice has no objections against the usage of the insolvency information as long as it is clear that the insolvency information is published by independent courts and the directive 96/9/EG of the European parliament and the European Council about the legal protection of registers is considered.

We do not guarantee that a document accessible through the pages of the European e-Justice Portal exactly corresponds to the officially adopted text. Only acts of the Republic of Austria which are published in the legally prescribed way are legally binding. Please mind the Austrian copyright notice under "legal notice".

4 For how long is the insolvency information made available? What are the national rules in this regard?

The insolvency information is available till legal deletion period eventuates.

Please refer to the regulations of Austrian [InsolvencyStatute](#).

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

The Austrian Insolvency register is hosted by the Federal Ministry of Justice in cooperation with the Federal Computing Centre

[Bundesministerium für Justiz](#)

1070 Wien, Museumstraße 7
Palais Trautson

[Bundesrechenzentrum GmbH](#)

1030 Wien, Hintere Zollamtsstraße 4

6 What is the guaranteed technical availability of the national register hosting insolvency information?

Supported operation: Monday – Friday 07:00 – 17:00

Unsupported operation 7x24 h

7 Where can I find more information?

- [The European e-Justice Portal](#)
- [Austrian Federal Ministry of Justice](#)

Belgium - Regsol

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

[Central Solvency Register](#)

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

The Registry allows creditors, counsel and interested third parties to access and interact with electronic insolvency files administered by the courts.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

In order to use the Registry, you must first create an account and accept the terms of usage.

4 For how long is the insolvency information made available? What are the national rules in this regard?

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

The national insolvency system is under the authority of Ministry of Justice.

Ministry of Justice
Sofia 1040
1 Slavyanska str.
Bulgaria

Website: <https://www.justice.government.bg/home/index/contacts>

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The register is available 24/7, subject to technical maintenance.

7 Where can I find more information?

European e-Justice Portal ([Bankruptcy and insolvency registers - Bulgaria](#))

[Commercial register and register of non-profit legal entities](#)

[Ministry of Justice](#)

Germany

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

The insolvency data are published by the local courts. In Germany 191 local courts are responsible for the insolvency cases. The data are "technically" published by the Ministry of Justice of NRW on behalf of all federal states ("German Länder") on the [national website](#).

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

As of June 30, 2021 all data regarding companies, business and self-employed people could be found without restrictions, if the insolvency proceedings were open on or after June 26, 2018.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The only restriction is that the insolvency data must not be available via another website longer than via the main German website.

4 For how long is the insolvency information made available? What are the national rules in this regard?

The data are published for a maximum period of 6 months after the final/last decision of the court. After that period it is deleted automatically. Exception and different setting may apply as this is within the ruling of each insolvency court.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

Responsible for the data is each of the 191 insolvency courts in the federal states ("German Länder"). Please contact these court using the [national court database](#).

For the portal (and not the data!) you might contact:

Ministry of Justice of the State of North Rhine-Westphalia
Martin-Luther-Platz
40212 Düsseldorf

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The website is regularly available 24/7, but there is only a guarantee of service between 06:00 and 20:00 from Monday until Friday.

7 Where can I find more information?

The German Insolvency Code (Insolvenzordnung – InsO) is available [here](#) (also in English translation)

Estonia – Central Commercial Register e-Business Register

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

Estonia does not have a separate insolvency register, but information on bankruptcy proceedings and debt adjustment proceedings of legal entities and natural persons is available in the official electronic publication [Ametlikud Teadaanded](#) (Official Announcements).

In Estonia it is the county courts that hear bankruptcy cases (insolvency proceedings). After declaring bankruptcy, the court must immediately publish announcement in the Official Announcements.

The publisher and controller of Official Announcements is the Ministry of Justice.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

There are no specific rules on accessing national insolvency information. You can search for legal entities and natural persons information by name or registry code/personal identification code.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

Data/notices in the Official Announcements are public until the proceedings come to an end. After that the announcements will be archived and is not publicly searchable.

Court judgments which have entered into force can be found in the [Estonian State Gazette website](#).

4 For how long is the insolvency information made available? What are the national rules in this regard?

Insolvency information in the Official Announcements and via the European e-Justice Portal are available until the proceedings come to an end. After that the announcements will be archived, with the exception of announcements concerning the termination of proceedings, which remain public for three years.

Archived notices/proceedings are stored for 30 years after archiving them. Archived notices are not publicly available.

The national rules for termination of publication of notices comes from the [Statutes of Official Announcements](#).

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

The controller of the Estonian Official Announcements is the Ministry of Justice.

[Ministry of justice](#)

[Registro Público Concursal](#)

[Registrars Association of Spain](#)

France – Insolvency Registry (Registre des Insolvabilités), part of the French Commercial and Companies Registry (Registre du Commerce et des Sociétés -RCS)

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

Insolvency data comes from a centralised national database, named “Registre des Insolvabilités”, updated every day with data flows from each French local court databases.

- Each local court is responsible for collecting insolvency information related to its jurisdiction and transmitting it to the centralized national database
- Infogreffe is the national body in charge of publishing the information and make it available to third parties when authorized: official documents related to insolvency procedures can be purchased [here](#).

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

France makes available only simple search mode with the current version.

Here are the available search criteria - At least two of them must be provided to trigger the search :

- Name of the searched debtor
- National registration number (in France it refers to « SIREN »)
- Maximum results number to be returned in the response

Information is provided if the procedure information comply with below rules:

- Procedure is already started (no information provided per anticipation)
- Procedure is not registered as [confidential](#)
- Available provided procedure types are:
 - Safeguard Procedure
 - Fast-track Safeguard Procedure
 - Financial Safeguard Procedure
 - Judicial Reorganisation
 - Legal Liquidation
- Parent company must be in France
- Debtor belongs to the defendant parties
- Debtor name belongs to words typed into the corresponding search field ; words are treated regardless accents, case, nor any priority in typed words when several provided
- Typed national registration number (Siren) must exactly fit the existing one in register when used.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

Terms and conditions of use are described [here](#).

As public data, there is no restriction on the use of insolvency data provided on the e justice portal.

4 For how long is the insolvency information made available? What are the national rules in this regard?

Decree n ° 2020-106 of February 10, 2020 made in application of article 3 of law n ° 2019-486 of May 22, 2019

known as the “Pacte law” reduced to two years from the plan decree the period at the end of which the automatic deletion of notices to the French Commercial and Companies Registry (Registre du Commerce et des Sociétés - RCS) concerning the decisions provided for in article R. 123-122, whether for the safeguard plan or for the recovery plan, takes place. This deletion period is temporarily reduced to one year from the termination of the plan by order 2020-596 of May 20, 2020 adapting the rules relating to difficulties of the companies to the consequences of the covid-19 epidemic. This provision is applicable until July 17, 2021 at the latest.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

Infogreffe
5/7 Avenue de Paris, 94300 Vincennes
France

E-mail: protection-donnees@infogreffe-siege.fr

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The national register is guaranteed to be available during working hours.

7 Where can I find more information?

More information about France Insolvency procedures can be found [here](#).

Croatia - The Insolvency Register

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

The insolvency data come from courts where bankruptcy and other insolvency proceedings are conducted and are updated once a day on [this webpage](#).

The Ministry of Justice and Public Administration provides technical preconditions for the operation of the Insolvency Register. However, all the Register data are under the jurisdiction of the court where the procedure is conducted. Therefore, remarks and questions regarding the accuracy or interpretation of the data should be addressed to the [court](#).

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

Insolvency Register can be searched by:

- name of the legal or natural person
- OIB (personal identification number)
- MBS (court registration number of the company)
- court name
- time of initiating the procedure.

Each search must contain at least one of the following search criteria: name of the legal or natural person, OIB and MBS. A search that does not contain at least one of the listed criteria is not possible.

The search will always return a maximum of 200 results that meet the specified criteria, sorted by name of the legal or natural person.

No registration is required to access the Insolvency Register.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

Information about insolvency is publicly available and accessible through the web page [Registar nesolventnosti](#), free of charge. However, it is not allowed to download the images, data and other software and design solutions of

the web page. Furthermore, the processing of personal data should be governed by the [Regulation \(EU\) 2016/679](#) on the protection of natural persons regarding the processing of personal data and the free movement of such data.

4 For how long is the insolvency information made available? What are the national rules in this regard?

The insolvency data is permanently available. In addition, the Insolvency Register includes data regarding restructuring and insolvency proceedings where the opening of the proceeding was issued no earlier than 1 September 2015 and regarding consumers' insolvency proceedings no earlier than 1 January 2016.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

For technical questions regarding the web page, you should contact the Ministry of Justice and Public Administration (helpdesk@mpu.hr). For data protection and data accuracy, you should contact a [court](#).

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The Insolvency Register is available on Internet 24/7, but guaranteed technical availability is during working days from 8:00 to 16:00 CET. The Register could be unavailable during the technical maintenance periods.

7 Where can I find more information?

More information can be found on the European e-Justice Portal or Ministry of Justice and Public Administration web page:

[Bankruptcy and insolvency registers - Croatia](#)

[Registar nesolventnosti](#)

Cyprus – The Insolvency Register

Luxembourg – « Registre de Commerce et des Sociétés » (Trade and Companies Register).

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

The insolvency data are provided by the Luxembourg Trade and Companies Register and originate from the Luxembourg judicial courts. Data are accessible [here](#). The national body responsible for this register is LUXEMBOURG BUSINESS REGISTERS, under the supervision of the Ministry of justice.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

The register is public and accessible for free on the internet portal of LUXEMBOURG BUSINESS REGISTERS. The list of insolvency decisions issued by the Luxembourg courts is available on a monthly basis.

Data may be searched by the name of the natural person, the name or business name of the legal person or registered entity or by means of the registration number in the Trade and Companies Register. Please note that a search based on the name of the insolvency practitioner might be added at a later stage.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The re-use of accessible documents and information must not be in breach of public policy and must comply with the applicable legal provisions, in particular those relating to the protection of personal data.

In all cases, the user is solely responsible for the re-use of documents and information made available to the public by LUXEMBOURG BUSINESS REGISTERS within the framework of the legislation and regulations governing the Trade and Companies Register (which includes the insolvency register).

The terms and conditions of use are available [here](#).

4 For how long is the insolvency information made available? What are the national rules in this regard?

Documents relating to the Trade and Companies Register in general and the insolvency information in particular shall be kept for 20 years after the striking off of the business name or the name to which they relate to.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

LUXEMBOURG BUSINESS REGISTERS

To the DPO

14 rue Erasme L-1468 Luxembourg

Luxembourg

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The national register hosting insolvency information website is available 24/7 except during technical maintenance periods. However, LUXEMBOURG BUSINESS REGISTER cannot be held responsible in case of unavailability of the application or in the event of malfunctioning of the Internet network or disruption of services linked to technical elements over which it has no control.

The helpdesk (hotline) is open from Monday to Friday from 8:00 to 17:30 without interruption.

7 Where can I find more information?

- [European e-Justice Portal - Bankruptcy and insolvency registers - Luxembourg](#) (please note that currently there is no additional information available on the Luxembourg insolvency register, and that this website will be updated once it will be put into place)
- [Trade and companies register](#)
- [The judicial administration website](#)

Republic of Latvia – Insolvency Register

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

The Insolvency Register contains data on insolvency proceedings initiated from 1 January 2008, except for insolvency proceedings of credit institutions, and they are recorded on the basis of data and documents from courts, the Insolvency Control Service, administrators of insolvency proceedings and supervisory persons. The Register of Enterprises of the Republic of Latvia is responsible for the maintenance of the Insolvency Register.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

The information is freely (without authentication) available [here](#) according to the following search criteria:

- Registration number / Personal ID number of debtor;
- Name of debtor;
- Period for initiation of proceedings;
- Form of legal proceedings;
- Nature of proceedings.

At least one of the above-mentioned criteria is mandatory. In addition, it may be specified:

- Status of proceedings (effective proceedings, terminated proceedings, all proceedings).

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

Insolvency register is a public register. The access to free information is provided for all interested persons,

according to law.

4 For how long is the insolvency information made available? What are the national rules in this regard?

Information on the insolvency proceedings of natural persons is publicly available for the duration of the respective proceedings and 1 year after the entry in the Insolvency Register has been made regarding the termination of the proceedings.

Information on insolvency and legal protection proceedings of legal persons is permanently available to the public.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

Insolvency Register is under the authority of the Register of Enterprises of the Republic of Latvia which is also the data controller:

Register of Enterprises of the Republic of Latvia

Pērses iela 2, Rīga

Republic of Latvia

Phone: (+371) 67031703

E-mail: pasts@ur.gov.lv

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The Insolvency Register is available 24/7. The insolvency data is unavailable only during technical maintenance periods.

7 Where can I find more information?

- The European e-Justice Portal: [Bankruptcy and insolvency registers - Latvia](#)
- Other national links:
 - [Insolvency register](#);
 - online information on an information website of the [Register of Enterprises](#);
 - [Insolvency law](#) (ENG).

Malta – Corporate Insolvency Register – E-Courts (Insolvent corporates and traders)

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

Malta has two insolvency registers. The first insolvency register includes data on corporate entities (<https://corporateinsolvency.mt/>), and is operated by the Office of the Official Receiver within the Malta Business Registry. The second insolvency register, accessible through the [wider e-courts system](#) also includes data on insolvent traders being natural persons. The latter register is operated by the Court Services Agency.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

Both registers are accessible free of charge. However, in relation to the Corporateinsolvency.mt register, a one-time free registration process is necessary.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

Both registers are considered as public registers, therefore the data extracted from any of the two registers can be used freely. The E-Courts system includes general terms of use which may be accessible by following this link: <https://ecourts.gov.mt/onlineservices/TermsOfUse>

4 For how long is the insolvency information made available? What are the national rules in this regard?

Currently the data contained in the Maltese Insolvency Registers is held for an indefinite period.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

The data protection officers for the Maltese insolvency registers are as follows:

Corporate Insolvency Register:

Dr. Geraldine Ann Spiteri Lucas
Data Protection Officer
Malta Business Registry
AM Business Centre
Triq il-Labour
Zejtun ZTN 2401
Malta

Phone: (+356) 2258 2300

E-mail: dpo.mbr@mbr.mt

E-Courts Insolvency Register:

Data Controller
Court Services Agency
Republic Street
Valletta
Malta

Telephone: (+356) 2590 2217

E-mail: dpo.csa@courtservices.mt

6 What is the guaranteed technical availability of the national register hosting insolvency information?

Malta guarantees the availability of its national registers hosting of at least 99%.

7 Where can I find more information?

Further information in relation to Corporate Insolvencies may be accessible by following the below links:

Office of the Official Receiver - Malta Business Registry portal:

<https://mbr.mt/insolvencies/>

E-Justice portal:

https://e-justice.europa.eu/topics/registers-business-insolvency-land/bankruptcy-and-insolvency-registers/mt_en

https://e-justice.europa.eu/topics/money-monetary-claims/insolvency-bankruptcy/mt_en

The Netherlands – Central Insolvency Register (Centraal insolventieregister)

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

In the Netherlands the Council for the Judiciary is responsible for the [Central Insolvency Register](#). The register contains the aggregated information from 2005 onwards of all insolvency notifications which by law have to be published in the Official Gazette. The notifications are supplied by the district courts responsible for the insolvency proceedings.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

Search Natural Persons

Through the functionality 'Search of insolvency proceedings concerning individual debtors(*) insolvency' can only be searched for Natural persons, on the home page of 'Bankruptcy & insolvency registers - search for insolvent debtors in the EU', choose the option 'Search of insolvency proceedings concerning individual debtors(*) insolvency'.

Searches on natural persons can only be performed if at least two of the following search parameters are supplied: surname, date of birth, address (which consists of postal code and house number). Therefore, natural persons cannot be searched via the simple search form. It's not allowed to search on personal identification numbers for Natural Persons. The simple search only returns businesses.

When searching natural persons, please take into account that:

- wildcards are not allowed;
- all searches are case-insensitive;
- diacritics (accents on characters) can be entered, but are not necessary (e.g. if you enter 'Mohlmann' you will also find 'Möhlmann')

Furthermore, due to administrative inconsistencies in the registration process, you are advised to use the following variants if you are looking for natural persons by name - in the order displayed.

- Start with entering the prefix (like 'van' in 'Ludwig van Beethoven') in the prefix field, and the rest of the surname in the surname field.
- Don't use abbreviations in the prefix field (like 'v.' for 'van'). If there is no prefix, leave the field blank.
- If the person you are looking for also uses the name of his or her partner in the surname, try the normal style (both surnames concatenated with a hyphen in between, e.g. 'Beethoven-Brahms'). If this doesn't give any matches, you can try the following (possibly in combination):
 - Don't enter the prefix in the prefix field, but in the surname field, with a space white between prefix and surname(e.g. 'van Beethoven');
 - Prefixes that do not have a Dutch origin might need a hyphen between prefix and surname - in the surname field (e.g. 'El-Haddaoui' instead of 'El Haddaoui');
 - Leave the prefix completely out of your search;

If a person carries both his or her own family name and the surname of the partner, leave out the name of the partner (e.g. if called 'Beethoven-Brahms' search just for 'Beethoven'. Please mind that in the Netherlands it is allowed to use any order. So, to be sure, also try 'Brahms'.

Search Legal person/Business via Simple search

When searching for a legal person / business, a search is case and diacritic (accents on characters) insensitive and a match is found if the specified name is part of the legal name. E.g., if you enter searching for "Mohlman Jansen", you will find "Bouwbedrijf Möhlman Jansen BV" but not "Jansen Möhlman Design".

Search Natural person/Legal person/Business via Advanced search

When searching for a natural person / legal person/ business, there are four possibilities to choose from:

- Search on postal code and house number (e.g. valid Dutch postal code is '1122AA' with house number '12')
- Search on Case properties
- Search on Unique identifier of insolvency case
- Search on Unique identifier of notification

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The Central Insolvency Register can be used by anybody. If you want to re-use the data, you can make use of a free-of-charge webservice, for which (only) Dutch and English documentation is available. To use this webservice

you'll have to declare that you will use the data in compliance with Dutch law on data protection. You can find information and register for an account [here](#).

If you need more information in English, please contact:

Landelijk Dienstencentrum voor de Rechtspraak
T.a.v. afdeling Dataleveranties
Postbus 3175
3502 GD Utrecht
Nederland / The Netherlands

E-Mail: dataleveranties@rechtspraak.nl

4 For how long is the insolvency information made available? What are the national rules in this regard?

Information on any insolvency proceedings can be consulted until six months after the proceedings have ended.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

The Council for the Judiciary is responsible for the Central Insolvency Register, daily operations carried out by 'IVO Rechtspraak', the IT-department of the Council:

IVO Rechtspraak
Postbus 85228
3508 AE Utrecht
Nederland / The Netherlands

E-mail: dataleveranties@rechtspraak.nl

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The register is available 24/7, subject to technical maintenance.

7 Where can I find more information?

You can find more information on the Central Insolvency Register [here](#).

Poland

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

The system is available [here](#).

Data on insolvency come from court proceedings. Data on insolvency will be posted by the bankruptcy/restructuring court.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

The indebted physical person who does not exercises professional activity (a consumer) may be searched only on the basis of predefined, complete legal identifier like personal identification number, tax identifier or similar. The search f.i. on the basis of his/her name or part of the name is not possible.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The register is public. There are no restrictions on the re-use of insolvency data and/or copyright rules applicable.

4 For how long is the insolvency information made available? What are the national rules in this regard?

As a rule, 10 years from the date of final completion or discontinuation of the proceedings to which they relate.

Exceptions:

- 3 years from the date on which the decision on the performance of the arrangement becomes final;
- 3 years from the expiry of the period of 5 years from the date on which the decision on conditional redemption of the debtor's liabilities becomes legally binding, without establishing a creditors' repayment plan.

Article 11 of the Act of 6 December 6, 2018 on the National Debt Register.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

Minister of Justice
Al. Ujazdowskie 11
00-950 Warszawa
Poland

6 What is the guaranteed technical availability of the national register hosting insolvency information?

The register is, as a matter of legal principle, accessible 24/7/365. SLA guarantees it at the level 99%.

7 Where can I find more information?

-

Portugal

1 Where does the insolvency data come from? Which is the national body responsible for the operation and information provision of this insolvency data?

Formally, there is no national body responsible for operating and providing information on insolvency data.

Currently, however, through the [Citius Platform](#), managed by the Institute of Financial Management and Justice Equipment, I.P. (IGFEJ, I.P.), it is possible to consult information on the special revitalization processes, the special processes for payment agreements, the extraordinary processes for the viability of companies and the insolvency processes.

2 Are there specific rules and prerequisite search criteria on accessing national insolvency information for this register?

Anyone can consult, through the Citius Platform, public data on the Special Revitalization Process (PER), the Special Process for Payment Agreement (PEAP) or the Insolvency Process.

The information provided in this way is as follows:

- Insolvency Proceeding Number
- Identification of the court where the insolvency proceedings are carried out
- Identification of the insolvent
- Identification of the insolvency administrator
- Deadline for claiming credits
- Date of declaration of insolvency.

Information on facts relating to insolvency contained in the civil registry and commercial registry is also public, and made available through the birth certificate and commercial registry certificate, respectively.

3 What are the terms and conditions of use governing access to the national insolvency data of this register? Are there any restrictions on the re-use of insolvency data and/or copyright rules applicable?

The rules that will govern access to national insolvency data under this new database to be created are still to be defined.

4 For how long is the insolvency information made available? What are the national rules in this regard?

Matter to be defined.

5 Who is the national data controller responsible for the information data, whom should I contact if I have a data protection concern, question or request?

DGPJ - Inês Oliveira Andrade de Jesus

E-mail: encarregado.protecao.dados.mj@dgpj.mj.pt

6 Where can I find more information?
