

## European Case Law Identifier (ECLI) - Greece

 Please note that the original language version of this page  has been amended recently. The language version you are now viewing is currently being prepared by our translators.

Greece does not participate in the ECLI system.

Nevertheless, we are currently at the preparatory stage in the creation of a unified database to include all domestic court rulings. There are already several electronic databases of case law on the web, relating to:

1) the Hellenic Supreme Court, containing only its own case law:

 <http://www.areiospagos.gr/>

2) the Council of State, containing only its own case law:

 <https://www.ste.gr/ste/faces/index.jsp>

3) Athens Administrative Court of First Instance, containing only its own case law:

(this service is only available for certified users)

There are also private subscription databases, access to which must be paid for. For example:

1) that of the Athens Bar Association

 <http://www.dsanet.gr/>

2) that of the company Intracom Services (private)
