Coordination of the National Network in a non-hierarchical structure

In Portugal, the national network has a non-hierarchical structure. Coordination, which is ensured by the contact point, is based on voluntary cooperation between national members. National members regularly participate in quarterly meetings organised by the contact point. Whenever the application of EU law requires changes to be made to the national system, meetings are held that are restricted to the national members concerned.

The network does not comprise experts. If an issue requires the opinion of an expert, the contact point requests the cooperation of the most appropriate national authority on a voluntary and informal basis. All national members are regularly encouraged by the contact point to cooperate in the specific areas of their competence and responsibility in judicial cooperation in civil and commercial matters.
